ESTEBAN VARAS
FULL STACK DEVELOPER

Since 2010 i've worked in the development of high-concurrency digital products, building web/mobile apps, websites for media, public and private organizations.
I like to put special care in the design, usability and use of cutting-edge technologies. My main goal is to learn and use new technologies, and convert them into tools designed and built for people.

WORK EXPERENCES

HEAD OF DEVELOPMENT
Slash SpA | Chile | 2016 - Present

Architecture definition and services building for E-Commerce and E-Learning platforms. Definition and validation of requirements for websites development. Task planning for the development team.
Building of React-based components and websites using React, NextJS, Firebase, MongoDB, HTML5 + CSS, Wordpress.
Deployment of Platforms in SaaS as Vercel and Firebase.

WEB DEVELOPER
Mediastream | LATAM | 2010 - 2014 / 2016 - 2020

Streaming content management and delivery apps, for live (video and audio) and on-demand content.
